REASON FOR FILL/REFILL: _____ O,

On February 28, 2023 Montecito Water District adopted Ordinance 98, which includes the following restrictions on water use for pools, spas, and hot tubs as cited in "Section 5j" of said Ordinance:

Water for private swimming pools, spas, and hot tubs is considered a non-essential use. Property owners with private swimming pools, spas and hot tubs are permitted to maintain water levels, and to completely fill, and/or drain and refill only once every five years upon application and written authorization from the District. On written application to the District, property owners may request relief from these pool restrictions for the purposes of pool repairs, which relief is in the discretion of the General Manager.

*Water for ponds is considered a non-essential use. Property owners are permitted to maintain water levels for currently existing lined ponds only. **Water for new ponds, or for maintaining water levels on unlined ponds, must be supplied by an alternative water source.** On written application to the District property owners may request relief from these pond restrictions for the purposes of pond repairs, which relief is in the discretion of the General Manager.*

Please sign below, acknowledging that a) you are hereby making an application to fill and/or refill the pool at the above referenced address; and b) you have read and understand the above-described Ordinance 98 water use restrictions; and c) you understand that any violation of the water use restrictions detailed in Ordinance 98 will be subject to fines in accordance with "Section 6" of said Ordinance.
